Role of Students in our Efforts to Accelerate Climate Action and Sustainability in Higher Education?
WHY
Our ocean and cryosphere
They sustain us
They are under pressure
Their changes affect all our lives
The time for action is now

WHY
WHY
#SHOWYOURSTRIPES

Annual global average temperatures from 1850-2018

Showyourstripes.info
Graphics and lead scientist: Ed Hawkins
Data: Berkeley Earth, NOAA, UK Met Office, MeteorSwiss, DWD.

HOW
Marie-Claire Graf, eine der Organisatorinnen der Klima-Demos, nimmt gegenüber der NZZ ebenfalls Stellung zu Ausgang der Klima-Wahl:
We empower students to bring sustainability into all aspects of higher education institutions globally. Our aspiration is for students worldwide to turn their institutions into sustainability role models.
